R814571   Termination Tool Cat.6A EL

090.7345

Description

The termination tool ensures an easy termination for the Cat.6A EL shielded and unshielded modules. With the mounting tool the termination block is pressed into the IDC contacts of the modules. The Module cover is manually closed. The strain relief is closed with the termination tool. This reduces termination time and effort for the connection of the modules.

Weight

17.000 G
